

Educational Opportunities

∴ Los Angeles County CCS provides extensive educational benefits as pediatric therapy is a specialty area that requires additional training. Continual updating of medical and intervention information is essential to provide quality care.

∴ **Continuing Education:**

☞ Therapists may receive up to 40 hours of paid continuing education time to attend continuing education courses relevant to their jobs.

∴ **Committee Participation:**

☞ Therapists have the opportunity to participate in various program development committees, e.g., Continuing Education, Evaluation, Documentation, Research Screening, Service Delivery, and Augmentative & Alternative Communication.

∴ **Training Opportunities:**

☞ Throughout the year, the CCS therapy education department offers numerous training opportunities on a variety of topics. Therapists may attend these in addition to their 40 hours of continuing education time with supervisor approval.
