

# FINAL COMMUNITY RADIATION SAMPLING PLAN MAP BASED ON HEALTH SYMPTOM REPORTS RECEIVED DURING THE ALISO CANYON GAS WELL BLOWOUT

- Initial proposed sampling locations
- Additional sampling locations based on public input

**SS-25 Gas Well**

**Symptom Report Density**

High  Low

The heat map shows the density of symptoms reported during the Aliso Canyon SS2-25 gas well blowout by respondent's address. On the red-to-blue color scale, red depicts areas where there was a high density of health symptom reports whereas blue depicts areas where there was a low density of reports.
