

USC School of Pharmacy Presents: APhA Pharmacy-Based Immunization Delivery

A Certificate Training Program for Pharmacists

20 hours of CE (12 hours of Self-Study and 8 hours Live)

Date: Saturday, October 26, 2013

Time: 9:00a – 5:00p

Location: USC School of Pharmacy (1985 Zonal Ave, Los Angeles, CA 90033) Room 104

Target Audience: Pharmacists and other health care professionals with an interest in learning the skills necessary to become a primary source for vaccine advocacy, education and administration

Goals: To provide comprehensive immunization education and training, as well as provide the pharmacist with the knowledge, skills, and resources necessary to establish and promote a successful immunization service

Objectives: At the completion of this activity, the participant will be able to:

1. Identify opportunities for pharmacists to become involved in immunization delivery
2. Describe how vaccines evoke an immune response and provide immunity
3. Discuss the legal, regulatory, and liability issues involved with pharmacy-based immunization programs
4. Describe the signs and symptoms of adverse reactions that can occur after vaccination
5. Demonstrate appropriate intramuscular and subcutaneous injection techniques for adult immunization
6. Describe emergency procedures for management of patients with adverse reactions to vaccination

For a complete list of learning objectives, please visit APhA's website: www.pharmacist.com/education

Presented by:
