90808	Long Beach	8	5374	14%	1163	1967.4	56	20	37.2	20

Note 1: Hosp data are shown for 2000-2010, Death data are shown for 2000-2009

Note 2: Data includes only those hospitalizations and deaths among 65+ year olds.

Note 2: The population shown is the 2010 US Census Population for 65+ year olds in each zip code. A constant population is assumed for the period.

Note 3: The rates shown are the annual rate per 100,000 population.

Note 4: Data for zipcodes with <16 hospitalizations and/or <5 deaths are suppressed

Note 5: Rates based on <20 cases are unstable and should be interpreted cautiously.
