

## RVPC COMMUNITY ACTION PLAN

<b>Regional Violence Prevention Coalition Lead Agency:</b>			
<b>Service Planning Area:</b>		<b>Date:</b>	

**INSTRUCTIONS:** Please use this template to develop your coalition’s community action plan, working with coalition members to do so (including youth and parent representatives). Use the following table to identify and describe your coalition’s overall violence prevention goals, 2-3 objectives, necessary actions and activities, expected timeline, and intended measurable outcomes. Please be as detailed as possible and keep the following in mind:

1. The 2-3 objectives should include at least two short term objectives (up to 6 months) and at least one intermediate objective (up to 12 months) and/or one long-term objective (up to 18 months).
2. Goals are broad statements of what you want to happen as a result of your coalition’s work. Examples of coalition goals are included below.
3. Objectives are the smaller, actionable strategies used to eventually reach your goal. All objectives must be measurable, specific, time-bound, and should identify a target population whenever applicable. Some of these objectives may be process related while others may be outcome related.
4. Intermediate and long-term objectives may be an expansion of your short-term objectives or may be a new, separate objective entirely.

## RVPC COMMUNITY ACTION PLAN

### RVPC Overall Goal Statement:

*(The big picture mission or vision that guides your smaller, actionable objectives).*

- Eliminate gender-based violence in South LA
- Reduce youth gang violence in Antelope Valley
- Ensuring all youth in East LA understand the risk of drug use
- Ensure all K-12 teachers in SPA 4 use trauma informed care practices in the classroom
- End violence and hate crimes against LGBTQ folks in SPA 8

**Action Plan Objective Example:**  Short-term Objective  Intermediate Objective  Long-term Objective

*By June 30, 2022 the RVPC in SPA 5 will meet with school administrators at every public high school in the SPA, resulting in a “Schools are Safe Zones” campaign on at least 5 school campuses. This goal was selected because our landscape analysis highlighted concerns from parents and teachers about the amount of violence occurring in and near high schools in our SPA. Our coalition identified youth interpersonal violence as a top priority, which aligns with this goal.*
