- Sites continue to show Incomplete (RED) when completing monthly update-
Updating information and saving ALL pages
- Manually adding a practitioner will not SAVE their information
Please email SAPC Team for a workaround
- Site location is activated/deactivated but still showing in the NACA
Due to processing on the contracts database, some information might still show on the NACA even after the change has been reported. Please email SAPC Team for tracking
- Missing NPI or DMC numbers
Please contact SAPC Team to update
- Not receiving confirmation emails when updating Monthly Practitioner

Below is a pre-populated list of practitioners associated with this specific site location.

- If a practitioner was recently onboarded, **but is not listed**: Use the "Associate New Practitioner" button to add them to the list.
- If a practitioner is listed, **but is no longer providing direct services at this location**: Use the down arrow button to disassociate them from the list.
- Regardless if after review you complete updates or have no updates, all providers **MUST**: Click on the "Confirmed Associated Practitioner" button. This will ensure your information is saved and prevent SAPC sending reminder e-mails when information is not updated.
- Confirmed Associated Practitioners on: **Associated Practitioners list has not yet been reviewed.**
