

Substance Use Disorder Resource Guide and Progressive Web App

Los Angeles County Dept. of Public Health
Substance Abuse Prevention and Control

All Provider Meeting - April 13, 2021

Goal

To develop a community-facing SUD resource guide and accompanying app to ensure that Los Angeles County residents can access prevention and treatment resources.

Developing a SUD Guide for LA County

- Directing the community to SUD information and resources in LA County.
- Dispelling myths and misunderstandings about what a SUD is and how to treat it.

SUD Guide + App

RecoverLA:

A Los Angeles County Guide to
Substance Use Disorder Prevention
and Treatment Resources

- SBAT link (App only)
- SASH
- Treatment Options
- Medications for Addiction Treatment (MAT)
- Overdose Prevention
- Harm Reduction
- CORE Centers
- Patient Rights
- and more

Contents

Key Terms

46

SUD Mobile App: RecoverLA

- Launches Spring/Summer 2021
- Can use menu option or tiles
- SASH call button throughout for ease of use

MAT Works

In the same way that medication can treat other chronic conditions, medication can also treat some Substance Use Disorders.

Medications for Addiction Treatment, or MAT, is the use of medication to reduce the harm caused by drug or alcohol use. Combined with behavioral health interventions, MAT supports people in achieving and staying in recovery.

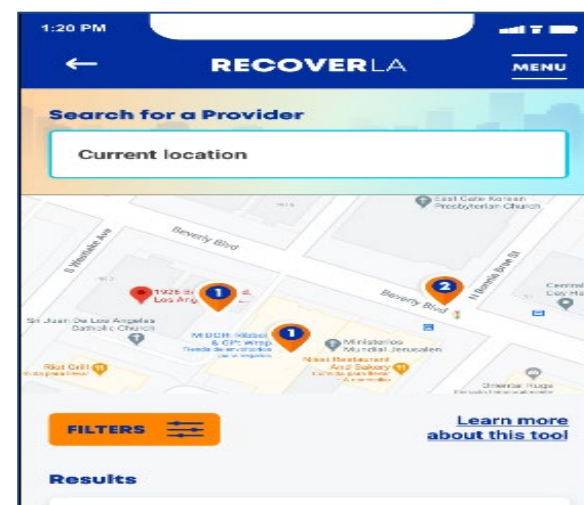

When prescribed and monitored, these medications reduce cravings and minimize withdrawal symptoms, leading people to stay in recovery for years or even decades.

Learn more about MAT at <https://www.matworks.org/>

“Find A Provider”

- Integrated SBAT optimized for mobile/tablet use
- Clickable phone number
- Easy to share
- Includes filtering options
