

QI & UM Provider Meeting: Same Day Billing Matrix

Substance Abuse Prevention and Control
Los Angeles County Health Agency and Department of Public Health

Demystifying the Same Day Billing Matrix

Background:

- Per state regulations, some services are not allowed to be reimbursed on the same day of services.
- The DHCS Same Day Billing Matrix identifies which of these services can and cannot be billed on the same day.
- This has cause many providers to be confused about what to request as the appropriate start date for their authorizations.

Have no fear, we are here to help provide.....

CLARITY

Demystifying the Same Day Billing Matrix

Why do these rules exist?

- Based on level of care needs, clinical rationale and consideration of duplicative services, DHCS created a matrix to identify which services can and cannot occur on the same day.
 - This is to minimize duplicative billing, such as those claims with day rates (patient cannot be at two residential programs on the same day).
 - There are multiple services that can occur on the same day (like groups) based on this matrix as they are standard aspects of treatment.

CLARITY

Demystifying the Same Day Billing Matrix

Where can I learn more about this?

- DHCS has a bulletin to describe which services CAN and CAN NOT be provided the same day.
- DHCS MHSUDS Information Notice 17-039 (Link to notice and matrix is on SAPC website, <http://publichealth.lacounty.gov/sapc/NetworkProviders/Regulations.htm> scroll to bottom of page)

Can a patient receive Residential Withdrawal Management 3.2 and Residential 3.1, 3.3 or 3.5 on the same day and each provider claim?

Demystifying the Same Day Billing Matrix

How do these rules affect my Authorization?

- UM works to ensure that providers DO NOT have overlapping authorizations for services that CAN NOT be billed the same day.
- **Why?** If two separate providers have overlapping authorizations for services that CAN NOT be billed the same day, someone is going to get to get their CLAIMS DENIED.
- **How does UM do this if there is already an authorization in place?**
 - UM modifies the end date for authorizations to ensure there is inappropriate overlap.

CLARITY

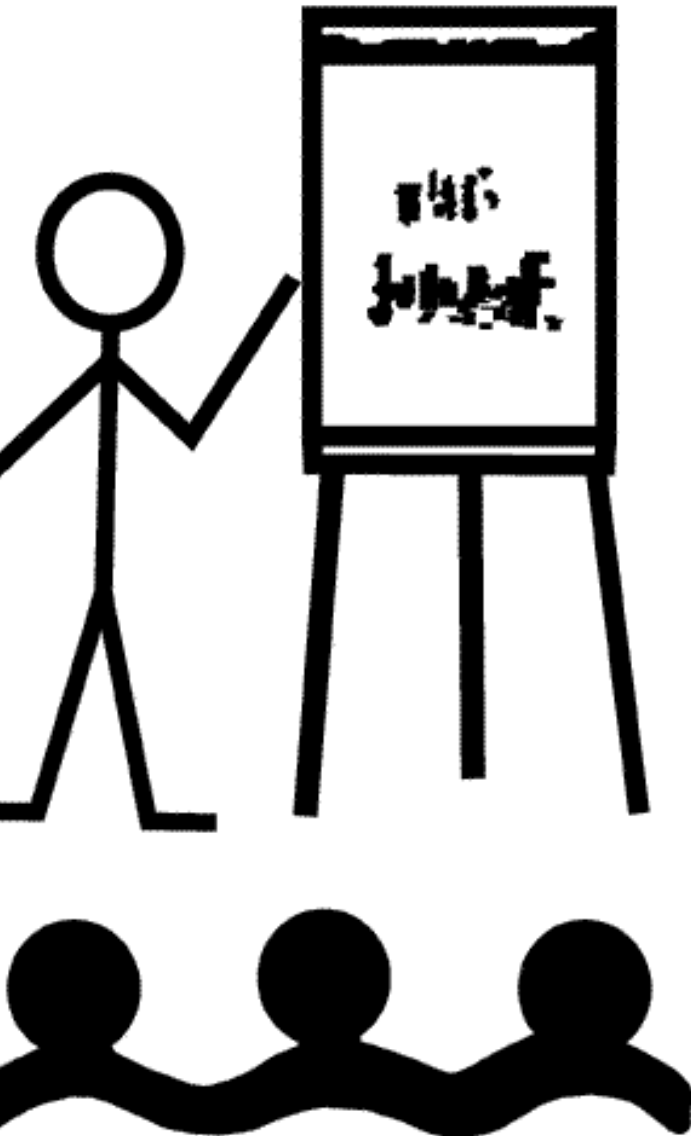

Demystifying the Same Day Billing Matrix

How do UM Care Managers decide how to modify dates when two providers may want to claim for that day?

1. ***They check the CalOMS data:*** Is patient still active at Provider A?
2. ***They ask YOU:*** If you are Provider A, they may inquire when was the last time you provided services to the patient. Depending on the situation, that may become your end date.
3. ***They try to create Win-Win situations:*** They modify end dates based on services provided to maximize ability of both providers to claim.
4. ***Tie goes to the Admitter:*** If there is overlap, preference goes to admitting provider.
 - General rule: Where the patient will be that night (at 11:59pm), gets the authorization for that night.

training

Upcoming SAPC Trainings

- Remember to always check the SAPC training calendar for current trainings and registration information.
 - <http://publichealth.lacounty.gov/sapc/Event/event.htm>
- Each calendar link will lead to the training flyer and registration information.
- All SAPC trainings offer continuing education credits for Registered and Certified SUD counselors, LMFT's, LCSW's, Psychologists, RN's, NP's and MD's
